2. Application

Applications Scenarios：

Emergency rescue, material delivery, fire bomb delivery, power wiring

3. Device Parameter

Product model	FT100P
Product size	125mm*117mm*60mm
Product weight	330g
Interface typ	SKYPORT V2.0/E-PORT/TYPE-C
Control mode	PSDK
System power	20W
Operating temperature	-20°至 60°
Number of channels	4
Control mode	Independent channel control delivery, arbitrary choice of throw number or one key all throw
Control distance	Communication distance with the drone is consistent
State feedback	The status of each channel is returned in real time
Installation methods	Belly snap fast installation
P HUB	Support
Load capacity	Single channel 2.5kg
